## POPULAR MUSIC HARMONY

VOLUME I

JEFF GARDNER

CYCLES

With extraordinary concision, this book presents, not only to pianists, but to any instrumentalist with a basic knowledge of music theory, the base of the pyramid of harmonic consciousness, starting with cycles, the basis for tonality, which is in turn the basis for modality - the very substance of popular music. Its principal merit lies in its discernment of the essential. If this book did not exist, it would have to be invented, so fundamental is its importance. *Ian Guest*

A wonderful study created by Jeff, offering a rich vocabulary of improvisation for all instruments. *William Magalhães (Banda Black Rio)*

A complete all-instruments guide to cycles in popular music including guide tones, voicings with and without roots, Drop 2, passing chords, and melodic phrases based on pairs of seventh chords through the cycle of fifths. Features charts on visualization techniques - superimposed seventh chords and upper structure triads, melodic studies on All the Things You Are and Autumn Leaves, cycles of thirds, composition exercises, and music for analysis. Level - beginning to advanced.

## POPULAR MUSIC HARMONY

VOLUME II

JEFF GARDNER

CADENCES  
AND HARMONIC SEQUENCES

Full of chord voicings and melodic lines on the most important progressions, this is a technical course of study for pianists and piano students, as well as a guide to the inter-relation of harmony and melody for all instrumentalists. A spectacular work! *Marcelo Martins*

Full of fantastic information for aspiring jazz pianists. *Russell Ferrante (Yellowjackets)*

Volumes I and II of Popular Music Harmony offer piano students and any instrumentalist interested in the subject a series of essential exercises based on the backbone of the tonal system: transpositions of cycles, cadences, and harmonic sequences. *Rubner de Abreu*

A complete book on the most common cadences including II V/ I and II IV/I with a wealth of voicings from guide tones to Drop 2, rootless voicings, fourths, fifths, and clusters. Also includes: gospel cadences, bitonal cadences, and numerous melodic lines on standards with complete harmonic analysis. Harmonic sequences with major, minor, dominant, and sus4 tonics are presented as chords, melodic lines, and with rhythmic feels including jazz, samba, baião, salsa, etc. Level - beginning to advanced.
